

LONGNOR HERITAGE
Conserve, Comply, Construct

HERITAGE PROJECT MANAGER

Preserving the past, building the future

Lead Heritage Projects

We're looking for an experienced, practical Project Manager to lead small heritage projects across the Midlands. You'll plan work, coordinate teams and suppliers, and make sure every job is delivered safely, properly and with care for the building.

Key Duties

Lead the day-to-day delivery of heritage and refurbishment projects; manage small works teams and their Team Leaders; plan labour, materials, access, subcontractors and sequencing; monitor progress, quality, safety and costs; maintain site records, photographs and progress updates; work professionally with clients, consultants and suppliers; and make sure RAMS, task instructions and digital processes are followed.

Requirements

Experience managing construction, refurbishment or small-works projects; practical understanding of site delivery and supervising trades; clear organisation, sound judgement and good communication; current CSCS card and full UK driving licence. Heritage, listed-building or traditional repair experience is an advantage. SMSTS or SSSTS is desirable.

Benefits

£45,000-£50,000 per annum, depending on experience; potential company vehicle or vehicle allowance; possible performance-related rewards; a long-term role in a straightforward specialist contractor; and a genuine opportunity to shape how projects are delivered.

Please apply in writing, in strictest confidence, with CV to Admin@LongnorHeritage.co.uk
